Fly high Queen, I remember you from when I was a little kid, you always spoke what was on your mind, if you didn't like what was being said or done, you had no problem giving your input or how you felt you always kept it real. I'll never forget the video of you on Facebook teaching us that didn't know how to eat chicken feet, the way they were to be eaten 😊😊. Please let my baby sister know that I think about her daily. Rest Easy Queen until we meet again.

Until We Meet Again Those special memories of you will always bring a smile. If only I could have you back for just a little while. Then we could sit and talk again, just like we used to do. You always meant so very much and always will too. The fact that you're no longer here will always cause me pain, But you're forever in my heart until we meet again.
